*Lumpkin County
will be a model of
local government.*

Core Values
Trustworthiness
Respect
Integrity
Excellence
Dedication

To Our Commissioners To Our County Manager

Strategic Highlights

In July the fleet maintenance shop had a new manager. The mechanics were not sure about working with another new manager, but after some time had passed by they saw my vision and we all worked together making the change a smooth and professional transition.

Operating Highlights

When I took over as fleet manager I observed the operation. It did not take long to see that the mechanics work hard and were concerned about the safety and making sure the vehicle was in the best mechanical shape they could be in.

Several other things that we addressed in the past six months are:

The outside and inside of the shop was organized and clean. Vehicles and equipment were put on GovDeals and sold, the kudzu removed off the fence to improve the image of the shop area. New software was implemented and the parts were bar coded for better inventory control, records on the vehicle and equipment. Communication between the county departments and the shop were improved. The county departments are the fleet maintenance customers and we have to provide a level of service to them.

Looking Ahead

New for 2018 the new software and the new fueling station working together to keep vehicles from going over the service point, by sending a notice to fleet maintenance that the vehicle is overdue for service which may cut down on repair cost. Hire a Public Works Technician to work between fleet maintenance, recycling and the road departments.

Conclusion

It has taken the team of Brian Anderson, Anthony Grizzle, Ricky Dockery, Donald Garrett and the road department staff working together as “one team” to make a working environment that is true to “Lumpkin County Core Values”.
