REPAIR SEPTIC APPLICATION

As of 2/20/2000, any person/persons installing on-site sewage management systems must be certified by the State or an approval for the system will not be issued. When installing a new system or a repair, if there are indications of unsuitable soils or other concerns please cease work and notify the Lumpkin County Environmental Health Department.

The certified septic installer must leave the repaired area uncovered until inspection is complete. (Unless prior approval from inspector)

**Repair fees: Residential 50.00
Commercial 100.00**

Any repair to the lot that would adversely affect the on-site sewage management system or the replacement area could render the permit or the final approval void.

In the event an on-site sewage management system, alternative system or soil fill installation is installed, notice shall be delivered to the owner of such property and in the event of new construction homes or commercial buildings, notice must be delivered to new owner, by the homebuilder/contractor, at the time of conveyance on such property stating the type of installation, design and maintenance needs.
