Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with <i>Government Auditing Standards</i>	104-106
Schedule of Findings and Responses	107-112

June 5, 2015

To the Citizens of Lumpkin County, Georgia:

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we are pleased to present to you the Comprehensive Annual Financial Report (CAFR) of Lumpkin County, Georgia for the fiscal year ended December 31, 2014.

This report consists of management's representations concerning the finances of Lumpkin County and was prepared by the Office of Financial Administration. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with GAAP. The County's comprehensive framework of internal controls is designed to provide reasonable, rather than absolute assurance that the financial statements will be free of material misstatements. We believe the data is presented in a manner which fairly sets forth the financial position and results of operations of the County as measured by the financial activity of its various funds, and that all disclosures necessary to enable the reader to gain a comprehensive understanding of the County's financial activity have been included.

The County's financial statements have been audited by Mauldin & Jenkins LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended December 31, 2014, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that Lumpkin County, Georgia's financial statements for the fiscal year ended December 31, 2014, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

As a recipient of federal and state financial assistance, the County is also responsible for ensuring that adequate internal controls are in place to assure compliance with applicable laws and regulations related to those programs. Thus internal controls are subject to periodic evaluation by management.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The County's MD&A can be found immediately following the report of the independent auditors.

General Information on Lumpkin County

Lumpkin County was officially established on December 3, 1832. Named in honor of Wilson Lumpkin, who served in both state houses, as governor, and in the U.S. House of Representatives and Senate, the County was carved out of what were then Cherokee, Hall and Habersham Counties.

Resting in the foothills of the Appalachian Mountains, Lumpkin County is 285 square miles in area, approximately 44% of which is located within the Chattahoochee National Forest. The population of the County has grown by 35% over the past ten years with a current 2014 census population estimate of 31,176.

In 1836, the Old Courthouse was built in the center of Dahlonega and is today the oldest public building in North Georgia. Also in 1836, the U.S. government opened one of the first Federal Branch Mints in Dahlonega. More than \$6 million in gold coins were minted at the site that was later to become North Georgia College and State University's Price Memorial Hall (the original mint building was burned to the foundation in 1878). The University was one of the first Federal Land Grant colleges and is to this day one of the premier military institutions in the nation.

Government Structure

Prior to January 1, 2005, Lumpkin County's Charter set forth a Sole Commissioner form of government under which the Commissioner was elected to serve as the executive and legislative body for the County.

The form of government was changed to a five person Board of Commissioners, effective January 1, 2005. The Board is comprised of four members that live in a specific district but are elected by voters countywide. Terms for the Board of Commissioners are staggered, so as to provide some continuity on the board. The Chairman is elected by voters countywide to serve a four year term. Each year, the members of the Board elect one of their own to serve as vice-chairman for the coming year. A County Manager, appointed by the Board of

Commissioners, serves as the administrative head of Lumpkin County Government. The County Manager provides direction to department heads and managers to implement policies set forth by the Board of Commissioners.

The citizens also elect other officials, such as the Tax Commissioner, Sheriff, Magistrate Court Judge, Probate Court Judge, Superior Court Judges, Clerk of Courts, Coroner and County Surveyor.

The County provides a full range of services, including police and fire protection, the construction and maintenance of highways, streets and other infrastructure, and recreational facilities.

The County maintains budgetary controls to ensure compliance with the annual appropriated budget approved by the Lumpkin County Board of Commissioners and State law. Annual appropriated budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund, debt service fund, and all special revenue funds. Project-length budgets are adopted for all capital projects funds. Annual operating budgets are not legally required for enterprise funds, but are prepared for use in planning, control and evaluation purposes. Budgetary control is essential to good financial management and the County has established a legacy of balanced budgets and good budgetary control. For each fund, financing sources are identified for all expenditures/expenses. The level of budgetary control (the level at which expenditures cannot legally exceed the approved budget) is established at the department level. The County does not currently use an encumbrance system under which purchase orders, contracts or other commitments for goods and services not yet received would be recorded as a reservation of fund balance. Instead, such commitments are re-budgeted each year.

Prior to January 1, 2005, the Sole Commissioner, the Director of Finance, and the Budget Officer acted as a Budget Committee. Subsequent to January 1, 2005, Georgia Senate Bill 58, the Act creating the Board of Commissioners, places the duty of budget preparation upon the County Manager.

Revenue and expenditure estimates are prepared by the responsible department and presented to the Budget Committee/County Manager in hearings open to the public. The Budget Committee/County Manager reviews the budget requests and makes decisions regarding the proposed budget. The proposed budget is presented to interested citizens during a public hearing. The Board of Commissioners then adopts the final budget at an official meeting.

Unforeseen situations may arise during the year that might require budget amendments. Department heads may request line-item budget amendments through the Finance Department, provided that the budget amendment does not increase or decrease the overall budget for that department. Any changes in department totals require approval at an official meeting by the Board of Commissioners.

Economic Condition and Outlook

Lumpkin County lies just 40 miles north of the perimeter highway that circles Atlanta, Georgia. It is also adjacent to Dawson County, which is one of the fastest growing counties in the nation. The busy State Route 400 crosses the southern portion of Lumpkin County, providing easy access for Atlanta area commuters. As the metropolitan Atlanta growth moves northward, Lumpkin County is now on the fringes of dense development creating a demand for residential properties. This growth also increases the demand for police and fire protection and water and sewer services.

The County's economy is based largely on a mix of tourism and related services, manufacturing, and agriculture. While the County has experienced a slight reduction in the rate of economic growth, its location and broad mix of industries has lessened the impact felt in other Counties in the State. We believe that the County is poised to rebound to the growth rates experienced in prior years, as the state and national economies continue to improve.

Major Initiatives & Accomplishments

During 2014, Lumpkin County was awarded six grants for personnel, renovations and equipment totaling \$797,509 and a grant from ACCG for a wellness program for employees.

Other accomplishments during the year include:

- ❑ Resurfacing approximately 24 lane miles of County roads, using a combination of Federal, State, and local money.
- ❑ Completion of site work for Fire Station 7 – Frogtown.
- ❑ Opened Fire Station 8 - Blackburn.
- ❑ Purchased new equipment for Road Department.
- ❑ Completed 2 joint projects with the City of Dahlonega.
- ❑ Completion of renovations to Community Center.
- ❑ Completion phase 4 of the Federal Highway Administration Minimum Maintained Retroreflectivity Levels requirement.

Financial Policies

The Finance Department strives to keep current with recommendations on financial policies and procedures. The policies and procedures adopted by the Lumpkin County Board of Commissioners are published in the codification of

county ordinances and distributed to all departments as needed. There was no significant impact to the current financial statements based on adopted policies or procedures.

Acknowledgements

The preparation, design and publication of this Comprehensive Annual Financial Report could not have been accomplished without the efficient and dedicated service of the entire finance office staff. We would also like to express our appreciation and thanks to the firm of Mauldin & Jenkins CPA's, LLC. The firm's dedication to the highest standard of governmental accounting and auditing and strong support of the finance office staff throughout the year has proven to be extremely beneficial.

Sincere appreciation also goes to the various elected officials, and county department directors for their assistance and positive attitude throughout the year in matters pertaining to the financial affairs of the County.

We would also like to thank local photographer Jack Anthony for generously allowing us to use his photographs in this document.

Finally, we thank the Board of Commissioners for their support and direction in conducting the financial affairs of the County in a responsible manner.

INDEPENDENT AUDITOR'S REPORT

**Board of Commissioners
of Lumpkin County, Georgia
Dahlonega, Georgia**

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of **Lumpkin County, Georgia** (the "County"), as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise Lumpkin County, Georgia's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Lumpkin County Department of Public Health or the Development Authority of Lumpkin County, which represents 26 percent, 17 percent, and 39 percent, respectively, of the assets, net position, and revenues of the aggregate discretely presented component units. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Lumpkin County Department of Public Health and the Development Authority of Lumpkin County, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

Auditor's Responsibility (continued)

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Lumpkin County, Georgia as of December 31, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, (on pages 5 through 14) and the budgetary comparison information and schedule of funding progress (on pages 59 through 61) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Lumpkin County, Georgia's basic financial statements. The combining and individual fund financial statements and schedules and the schedule of expenditures of special purpose local option sales tax proceeds, as required by the Official Code of Georgia 48-8-121, as well as the introductory and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

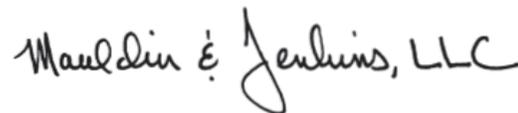

Other Information (continued)

The combining and individual fund financial statements and schedules and schedule of expenditures of special purpose local option sales tax proceeds (collectively “the supplementary information”) are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 5, 2015, on our consideration of Lumpkin County, Georgia’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County’s internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Lumpkin County's Comprehensive Annual Financial Report provides readers with a narrative overview and analysis of the County's financial performance during the fiscal year that ended on December 31, 2014. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal at the front of this report, the County's basic financial statements, and notes to the financial statements to enhance their understanding of the activities and financial health of Lumpkin County.

The County is required to present a discussion and analysis of our financial condition and performance for the year ended December 31, 2014.

Financial Highlights

- Lumpkin County's governmental activities exceeded its liabilities at December 31, 2014 by \$75.6 million (*net position*). Of this amount, \$7.4 million (*unrestricted*) may be used to meet the government's ongoing obligations to citizens and creditors.
- As of December 31, 2014, the governmental funds of Lumpkin County reported combined ending fund balances of \$13.0 million, a decrease of \$1.2 million in comparison with the prior year. Approximately 38.68% of this amount, \$5.0 million, is *available for spending* at the government's discretion (*unassigned fund balance*).
- At the end of 2014, unassigned fund balance for the general fund was \$5.1 million, or 31.48% of total general fund expenditures.
- During 2002, the voters of Lumpkin County approved a Special Purpose Local Option Sales Tax (SPLOST) to be collected and used exclusively to service the debt associated with the Public Building Authority Issue, Series 2001. At the end of 2014, the Debt Service Fund had accumulated \$3.8 million toward the goal of retiring the 2001 issue.
- During 2014, Lumpkin County made principal and interest payments totaling \$1.4 million on the Public Building Authority Issue, Series 2001. These payments reduced the outstanding principal to \$1.74 million. The original issue was for \$15.75 million.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's *Basic Financial Statements*. The Basic Financial Statements contain three components: government-wide financial statements (including component unit statements), fund financial statements, and notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

The basic financial statements include two kinds of statements that present different views of the County:

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the County's overall financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the County government, reporting the County's operations in more detail than the government-wide statements.
 - **Governmental Fund Statements** tell how *general government* services like general government, public safety, judicial system, public works, health and welfare, cultural and recreation, and housing and development were financed in the short-term as well as what remains for future spending.
 - **Proprietary Fund Statements** offer *short-term* and *long-term* financial information about the activities the County government operates similar to a private business. The Solid Waste Fund is reported as an enterprise fund.
 - **The Fiduciary Fund Statements** provides information about *Agency Fund* assets held by the County, which is acting solely as a *trustee or agent* for the benefit of others, to whom the resources belong.

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. In addition to these required components, a section is included with combining statements that provide further detail about our non-major governmental funds, each of which are added together and presented in a single column in each of the basic financial statements.

Table A on the following page summarizes the major features of the County's financial statements, including the portion of the County government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Government-wide Statements

The government-wide statements report information about the County as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes *all* of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid. The two government-wide statements report the County's *net position* and how they have changed. Net position, the difference between the County's assets and liabilities, is one way to measure the County's financial health or current position.

- ❑ Over time, increases or decreases in the County's net position is an indicator of whether its financial health is improving or deteriorating, respectively.
- ❑ To assess the overall health of the County, consideration should be given to additional non-financial factors such as changes in the County's property tax base and the condition of the County's roads.

The government-wide financial statements of the County are divided into three categories:

- ❑ *Governmental activities*: Most of the County's basic services are included here, such as general government, public safety, judicial system, public works, health and welfare, culture and recreation and housing and development. Property taxes, local option sales taxes, and State and Federal grants finance most of these activities.
- ❑ *Business-type activities*: The County charges fees to customers to help cover the costs of certain services it provides. The County's only Enterprise Fund, the Solid Waste Fund is included.
- ❑ *Component units*: The County includes five other entities in its report: The Lumpkin County Health Department, The Lumpkin County Water & Sewerage Authority, Development Authority of Lumpkin County, The Lumpkin County Hospital Authority and The Lumpkin County Public Building Authority. Although legally separate, these "component units" are important because the County is financially accountable for them. The Public Building Authority is reported as a blended component unit, since the operations are indistinguishable from those of the primary government.

Fund Financial Statements

The fund financial statements provide more detailed information about the County's most significant *funds*, not the County as a whole. Funds are accounting devices that the County uses to keep track of specific sources of funding and spending for particular purposes.

- ❑ Some funds are required by state law and by bond covenants.
- ❑ The County establishes other funds to control and manage resources for particular purposes (i.e. Debt Service and Capital Projects Funds) or show that certain revenues are used appropriately (i.e. Special Revenue Funds).

The County has three kinds of funds:

- *Governmental funds:* Most of the County's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided on the subsequent page of the governmental funds statement that explains the relationship (or differences) between the two types of statements.
- *Proprietary funds:* Services for which the County charges customers a fee and are expected to be largely self-supporting, are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information. The County's Enterprise Fund is classified as a business-type activity on the government-wide statements, but more detailed information is provided in the Proprietary Fund Statements, such as its cash flows.
- *Fiduciary funds:* Fiduciary funds are used to account for resources held for the benefit of parties outside the government. These balances are excluded from the County's government-wide financial statements because the County cannot use these assets to finance its operations.

Financial Analysis of the County as a Whole

Net position. As discussed earlier, net position may serve as a useful indicator of a government's financial position. As of December 31, 2014, the County's net position was \$75.9 million, which is an increase of approximately \$.5 million from the prior year. Table B on the following page provides a summary of the County's Governmental and Business-type net positions for 2014 and 2013.

*Current and other assets includes deferred outflows of resources and other liabilities includes deferred inflows of resources

A significant portion (82.8%) of the net position represents the *net investment in capital assets*. This includes land, buildings, machinery and equipment, and infrastructure assets, offset with associated long-term debt liabilities. Capital assets are restricted for the purpose of providing services to the citizens of Lumpkin County; consequently, they are not available for future spending. Although the investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

Other restricted net position components represent resources that are subject to external restrictions on how they may be used and total 8.1% of the total. Included in this category are unspent SPLOST proceeds for Debt Service Reserves (5.2% of the total), funds restricted for capital projects (2.48% of the total), public safety activities (0.18% of the total), law library activities (0.1% of the total), and judicial activities (0.14% of the total).

The remaining 9.1% of net position represent the unrestricted portion available for the County's ongoing obligations to its citizens.

Changes in Revenues and Expenses. Table C presents the County's 2014 and 2013 revenues and expenses for Governmental and Business-type activities as they are reported in the Entity Wide Statements.

Governmental Activities: Governmental activities accounted for \$.5 million of the excess in the County's net revenues over expenses for 2014 primarily due to the collection of back property taxes, interest and penalties.

Business-type Activities: The County's only business-type activity, the Solid Waste Fund, is privately leased and the only revenue from this activity will be rental income.

Financial Analysis of the County's Funds

Governmental Funds Overview: Lumpkin County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. As described earlier, the County's governmental funds provide information on short-term inflows and outflows, as well as what remains for future spending. Such information is useful in assessing the County's financing requirements. For example, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of 2014, Lumpkin County Governmental Funds reported a combined fund balance of \$13.0 million. This amount was down \$1.2 million from 2013. Of the total combined fund balance, approximately 38.7% consists of *unassigned fund balance*, the portion of fund balance, which serves as a measure of current available financial resources.

The *restricted fund balance* represented resources not available for spending or those on which legal restrictions have been placed. The County's restricted fund balance makes up 46.8% of the combined total.

The General Fund, Debt Service Fund, and SPLOST Fund are the County's major governmental funds.

General Fund. The General Fund of Lumpkin County accounts for all transactions not accounted for in other funds. As the County's major operating fund, the General Fund accounts for ordinary operating expenditures financed primarily by property taxes and charges for services. The General Fund completed the year with a fund balance of \$6.9 million. This was a decrease from the previous year. Of the \$6.9 million, 73.75% is unassigned while the remaining 26.25% is non-spendable or assigned.

Debt Service. The Debt Service Fund accounts for the 2002 Special Purpose Local Option Sales Tax (SPLOST) money, including earned interest, which is reserved for retiring the Lumpkin County Public Building Authority Issue, Series 2001. This issue had an original principal balance of \$15.75 million and at December 31, 2014 had an outstanding principal balance of \$1.74 million. The fund balance of the Debt Service Fund is \$3.9 million.

SPLOST. This fund accounts for the 2008 SPLOST money, including earned interest, which is to be used for various capital projects as provided in Title 48, Chapter 8 of the Official Code of Georgia Annotated. At December 31, 2014 the fund balance of this fund was \$1.9 million.

Proprietary Funds Overview. The Proprietary fund is used to account for activities similar to those found in the private sector where determination of net income is necessary or useful to sound financial administration. Lumpkin County has one type of Proprietary Fund, The Enterprise Fund. The County's Proprietary Fund Statements provide the same type of information found in the government-wide statements, but in more detail.

Enterprise Fund. The Enterprise Fund accounts for operations that are financed and operated in a manner similar to private business enterprises - where the costs (expenses, including depreciation) of providing goods or services to the general public are being financed or recovered primarily through user charges on a continuing basis. The Solid Waste Fund is the County's single enterprise fund. Total net position of the enterprise fund at the end of 2014 was \$232 thousand, representing an increase of \$11 thousand due largely to transfers from the general fund.

General Fund Budgetary Highlights

Over the course of the year, the governing authority revised the County's budget several times. The three primary reasons for amending the budget are:

- Carry forwards from the prior year's capital improvement projects that were not completed in the prior year and continued into the current year.
- Supplemental appropriations to increase revenue and expenditure accounts due to receipt of unanticipated grant revenue.
- Increases in appropriations due to unexpected needs.

Even with these adjustments, actual expenditures were \$52 thousand above final budget amounts.

Capital Assets and Debt Administration

Capital Assets

At the end of 2014, the County had acquired \$79 million (net of accumulated depreciation) in a broad range of capital assets for its governmental and business-type activities including land, buildings, park facilities, roads, bridges, heavy machinery, vehicles and equipment, and infrastructure.

- All infrastructure assets acquired to date are included in capital assets in accordance with GASB 34 requirements.
- There was no increase in capital assets, net of accumulated depreciation, for the current fiscal year. The percentage decrease in capital assets was 0.65%.
- Additional information on the County's capital assets can be found in Note 6 of the Notes to Financial Statements.

Debt Administration

Georgia Statutes provide for a general obligation debt limit of 10.0% of assessed valuation. The County had a general obligation debt capacity of \$104 million in 2014. The County currently has \$1.74 million subject to the limitation.

At December 31, 2014, Lumpkin County had the following outstanding long-term debt:

- \$17.1 million in notes payable.
- \$334 thousand in compensated absences.
- \$ 9 thousand in net pension obligation.
- Additional information on the County's long-term debt can be found in Note 8 of the Notes to Financial Statements.

Economic Factors and Next Year's Budgets and Rates

Economic conditions in the County stabilized during 2014, with minimal growth in the business sector. New housing starts were up in the County during 2014, with no real impact to the tax base and increasing demands for services. In an effort to stimulate growth of light industry and shift more of the tax burden from homeowners, a project to extend water and sewerage service was begun during 2003 and was completed during 2006 in the southern part of the County. This project has been completed and the County is beginning to see some retail growth in that area of the County.

Due to the sluggish economy, the 2015 budget plans for no increase in tax revenues and has anticipated a similar collection in revenues from sales tax and property tax. The economy has necessitated a tight spending budget for 2015 as the value of the digest continues to decline. The budget increased by \$771 thousand, largely due to the County utilizing fund balance to purchase equipment and perform construction projects, the County has also been able to maintain the same level of service even though fuel costs have risen. The County has also implemented a number of cost saving measures and is currently looking at joint ventures within the community to ease the burden placed on the operating budget.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2014

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ (1,153,191)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.	(510,669)
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to decrease net position.	(5,428)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	57,361
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.	2,134,750
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	<u>(591)</u>

LUMPKIN COUNTY, GEORGIA

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Lumpkin County, Georgia (the "County") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the County's accounting policies are described below.

A. Reporting Entity

Lumpkin County operates under a commissioner-manager form of government under which a five member Board of Commissioners is elected to serve as the legislative body for the County. The commission chairman is elected at large, while the remaining four commissioners are elected by geographical districts in which they reside by voters county-wide. The County provides the following services: public safety, judicial, public works, health and welfare, culture and recreation, housing and development, and general administrative services.

As required by accounting principles generally accepted in the United States of America, the financial statements of the reporting entity include those of the County and its component units. The component units discussed below are included in the County's reporting entity because of the significance of their operational or financial relationship with the County. Blended component units, although legally separate entities are, in substance, part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

Blended Component Unit

The Lumpkin County Public Building Authority (the "Building Authority"), which provides financing exclusively for County buildings, is governed by a five member board appointed by the Lumpkin County Board of Commissioners. The debt of the Building Authority is reported as part of the County's debt, and all debt service activity is reported in the County's debt service fund. Separate financial statements are not prepared for the Building Authority.

Discretely Presented Component Units

The Lumpkin County Department of Public Health (the "Health Department") is governed by a seven member board consisting of one member of the Board of Commissioners and two members as appointed by the Board of Commissioners. The County has the authority to modify and approve the Health Department's budget and the ability to approve environmental health service fees. The Health Department has a June 30th year-end and is presented as a governmental type component unit.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. Reporting Entity (Continued)

Discretely Presented Component Units (Continued)

The Health Department's financial statements can be obtained by writing to the Lumpkin County Health Department, 60 Mechanicsville Road, Dahlonega, GA 30533.

The Development Authority of Lumpkin County (the "Development Authority") is governed by a nine member board appointed by the Board of Commissioners. The Authority is responsible for promoting economic development within Lumpkin County. The Development Authority provides a financial benefit to the County. The Authority is reported as a proprietary type component unit.

The Development Authority's financial statements can be obtained by writing to the Development Authority of Lumpkin County, 194 Courthouse Hill, Annex A, Dahlonega, GA 30533.

The Lumpkin County Water and Sewerage Authority (the "Water Authority") is governed by a seven member board appointed by the Board of Commissioners. The County has the ability to impose its will upon the Water Authority in addition to its appointment of a voting majority of the Water Authority's governing body. The Water Authority is reported as a proprietary type component unit.

The Water Authority's financial statements can be obtained by writing to the Lumpkin County Water & Sewerage Authority, 194 Courthouse Hill, Annex A, Dahlonega, GA 30533.

The Lumpkin County Hospital Authority (the "Hospital Authority") is governed by a nine member board appointed by the Board of Commissioners. The County has the authority to approve or modify the budget of the Hospital Authority and has the ability to impose its will upon the Hospital Authority. The Authority provides medical services for indigent citizens of the County and is reported as a proprietary type component unit. The Hospital Authority does not issue separate financial statements.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Government-wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and the fiduciary fund financial statements. Agency funds, however, have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers property taxes to be available if they are collected within 60 days of the end of the current fiscal period. Other revenues susceptible to accrual are considered available if they are collected within 90 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

Property taxes, sales taxes, intergovernmental grants, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period if availability criteria have been met. All other revenue items are considered to be measurable and available only when cash is received by the County. The County reports the following major governmental funds:

The **General Fund** is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **Debt Service Fund** accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The **Special Purpose Local Option Sales Tax Fund (SPLOST)** is used to account for the revenues and expenditures relating to the County's 1% Special Purpose Local Option Sales Tax issues.

The County reports the following major proprietary fund:

The **Solid Waste Management Fund** is used to account for the activities of the County's solid waste disposal program.

Additionally, the County reports the following fund types:

The **special revenue funds** account for revenue sources that are legally restricted to expenditure for specific purposes.

The **agency funds** are used to account for the collection and disbursement of monies by the County on behalf of other governments and individuals, such as cash bonds, traffic fines, support payments, and ad valorem and property taxes.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

In accounting and reporting for its proprietary operations, the County applies all Governmental Accounting Standards Board (GASB) pronouncements.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the enterprise fund are charges to customers for sales and services provided. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. However, interfund services provided and used have not been eliminated in this process.

D. Deposits and Investments

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are recorded at fair value based on quoted market prices as of the balance sheet date. Increases or decreases in the fair value during the year are recognized as a component of interest income.

E. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year as well as all other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

G. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of \$5,000 and an estimated useful life in excess of two years. Intangible assets, such as internally generated or purchased software, are defined as having an initial cost of \$25,000 and an estimated useful life in excess of two years, and all remaining intangible assets are defined as having an initial cost in excess of \$100,000 and an estimated life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The County has elected to capitalize all general infrastructure assets regardless of the acquisition date and has used the estimated historical cost to value these assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend useful lives are expensed as incurred.

Capital assets of the primary government are depreciated using the straight line method over the following useful lives:

<u>Asset Category</u>	<u>Years</u>
Buildings and improvements	20 - 50
Machinery and equipment	5 - 20
Vehicles	3 - 10
Infrastructure	19 - 50

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense / expenditure) until then. The County only has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or the refunding debt.

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County reports deferred inflows of resources in both its governmental funds balance sheet and statement of net position.

Unavailable revenues, which arise only under a modified accrual basis of accounting, qualify for reporting in this category. The governmental funds balance sheet will report unavailable revenues from property taxes and other sources as these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available in accordance with the County's revenue recognition policy.

The governmental funds balance sheet and the government wide statement of net position will report deferred inflows of resources for unearned revenues. The County reports unearned revenues from property taxes which are received or reported as a receivable before the period for which the taxes have been levied. Additionally, the County reports unearned intergovernmental revenues from voluntary exchange transactions for resources received before time requirements are met but after all other eligibility requirements have been met.

I. Compensated Absences

It is the County's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the County does not have a policy to pay any amount when employees separate from service with the County. All vacation and annual leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations or retirements.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

K. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as “fund balance.” Fund equity for all other reporting is classified as “net position.”

Fund Balance – Generally, fund balance represents the difference between the assets and liabilities under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the County is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

Fund balances are classified as follows:

Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

Restricted – Fund balances are reported as restricted when they include amounts that can be spent only for the specific purposes stipulated by the constitution, external resource providers, or through enabling legislation.

Committed – Fund balances are reported as committed when they include amounts that can be used only for the specific purposes determined by a formal action (passage of a resolution) of the Board of Commissioners. The same formal action is required to subsequently remove a commitment of fund balance.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Fund Equity (Continued)

Assigned – Fund balances are reported as assigned when they include amounts intended to be used by the County for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. By passage of a resolution establishing the County's fund balance policy, the Board of Commissioners has delegated the County Manager the authority to assign amounts to be used for specific purposes.

Unassigned – Fund balances are reported as unassigned as the residual classification for the County's general fund and includes all spendable amounts not contained in the other classifications. In addition, any remaining deficits in the County's governmental funds which remain after all other fund balances have been exhausted are classified as unassigned.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the County's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the County's policy to use fund balance in the following order: (1) Committed, (2) Assigned, (3) Unassigned.

Net Position – Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources in reporting which utilizes the economic resources measurement focus. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the County has spent) for the acquisition, construction or improvement of those assets. Net position are reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position is reported as unrestricted.

The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

L. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from these estimates.

NOTES TO FINANCIAL STATEMENTS

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

The governmental fund balance sheet includes reconciliation between *fund balance – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that “long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$16,848,685 difference are as follows:

Notes payable	\$ (8,151,140)
Revenue bonds payable	(8,880,000)
Premium on issuance of revenue bonds	(35,425)
Deferred loss on refunding	633,189
Accrued interest payable	(81,753)
Compensated absences	<u>(333,556)</u>
Net adjustment to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	<u><u>\$ (16,848,685)</u></u>

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this \$510,669 difference are as follows:

Capital outlay	\$ 1,736,687

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

Another element of the reconciliation states that “The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to decrease net position.” The details of this \$5,428 difference are as follows:

In the statement of activities, only the gain or loss on the sale of capital assets is reported. However, in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the net book value of the assets sold.	\$ (20,905)
Donations of capital assets increase net position in the statement of activities, but do not appear in the governmental funds because they are not financial resources.	<u>15,477</u>
Net adjustment to decrease <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position - governmental activities</i>	<u><u>\$ (5,428)</u></u>

Another element of the reconciliation states that “The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.” The details of this \$2,134,750 difference are as follows:

Principal repayments of revenue bonds	\$ 600,000
Principal repayments of notes payable	<u>1,534,750</u>
Net adjustment to increase <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position - governmental activities</i>	<u><u>\$ 2,134,750</u></u>

NOTE 3. LEGAL COMPLIANCE – BUDGETS

A. Budgets and Budgetary Accounting

The County follows the following procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to July 1, the County Manager submits to the Board of Commissioners a proposed operating budget for each department for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
2. A public hearing is conducted to obtain taxpayer comments, giving notice thereof at least seven days in advance by publication in the official organ of the County.
3. The budget is then adopted by the Board of Commissioners at a public meeting.
4. Budget amounts can be transferred between line items within any department (the legal level of budgetary control); however, any revisions of the budget must be amended by formal action of the Board of Commissioners in a regular meeting.
5. The budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP). Annual budgets are adopted for the General Fund, Debt Service Fund, and special revenue funds. Project length budgets are adopted for the capital projects funds.
6. Formal budgetary integration is employed as a measurement control device during the year for the General Fund, Debt Service Fund, and the special revenue funds. An annual operating budget is prepared for the Solid Waste Fund for planning, control, cost allocation, and evaluation purposes. All appropriations lapse at year end.

NOTES TO FINANCIAL STATEMENTS

NOTE 3. LEGAL COMPLIANCE – BUDGETS (CONTINUED)

A. Budgets and Budgetary Accounting (Continued)

Budgeted amounts are as originally adopted, or as amended by the Board of Commissioners. The supplementary budgetary appropriations made are reflected in the final budget amounts.

B. Deficit Fund Equity

The following funds had deficit fund balances at December 31, 2014. The fund deficits will be reduced through availability of revenues, lower expenditures, and General Fund appropriations, as needed.

Fund	Deficit
Multiple Grant Fund	\$ 4,180
Planning Fund	10,259

C. Excess Expenditures Over Appropriations

For the year ended December 31, 2014 expenditures exceeded the budget in the funds and General Fund departments as follows:

Fund/Department	Excess
General Fund - Superior Court	\$ 17,789
General Fund - Magistrate Court	6,949
General Fund - Fire	292,606
General Fund - Sheriff	132,482
General Fund - Coroner	5,539
General Fund - Community Services	28,816
Debt Service Fund	2,687
Drug Rehabilitation Fund	32,993
Law Library Fund	8,269
Emergency Telephone System Fund	4,341
Special Programs Fund	16,020
Hotel/Motel Tax Fund	14,083

The excess of expenditures over budget that are noted above were primarily funded by greater than anticipated revenues and available fund balance.

NOTES TO FINANCIAL STATEMENTS

NOTE 4. DEPOSITS AND INVESTMENTS

A. Primary Government

Credit risk. State statutes authorize the County to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. government; obligations fully insured or guaranteed by the U.S. government or by a government agency of the United States; obligations of any corporation of the U.S. government; prime bankers' acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia.

Custodial credit risk. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes and County policy require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities of the State of Georgia. As of December 31, 2014, the County's deposits were insured and/or collateralized as defined by state statutes and GASB pronouncements.

At December 31, 2014, the County's funds included the following investments:

<u>Investment</u>	<u>Maturity</u>	<u>Rating</u>	<u>Fair Value</u>
Federal Home Loan Banks	December 30, 2015	AAA / AA+	\$ 581,470
Federal Farm Credit Banks	December 7, 2016	AAA / AA+	2,674,675
			<u>\$ 3,256,145</u>

Interest rate risk. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

B. Component Unit – Health Department

Custodial credit risk. As of June 30, 2014, the Health Department had no uninsured or uncollateralized deposits.

NOTES TO FINANCIAL STATEMENTS

NOTE 4. DEPOSITS AND INVESTMENTS (CONTINUED)

C. Component Unit – Development Authority

Custodial credit risk. As of December 31, 2014, the Development Authority had no uninsured deposits.

D. Component Unit – Hospital Authority

As of December 31, 2014, the Hospital Authority had the following investments:

<u>Investment</u>	<u>Maturity</u>	<u>Rating (S&P)</u>	<u>Fair Value</u>
GA Municipal Association COP	December 1, 2023	AA	\$ 106,816
Federal Farm Credit Bank	March 21, 2028	AA+	193,392

Tennessee Valley Authority	July 15, 2033	AA+	120,030
Federal Farm Credit Bank	June 8, 2037	AA+	123,775
Decatur GA School System COP	May 1, 2044	AA-	210,595
	Total		<u>\$ 1,193,251</u>

Interest rate risk. The Hospital Authority does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial credit risk. As of December 31, 2014, all of the Hospital Authority's deposits and investments were collateralized with the depository financial institution.

E. Component Unit – Water Authority

Custodial credit risk. As of December 31, 2014, all of the Water Authority's deposits were collateralized with the depository financial institution.

NOTE 7. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of December 31, 2014, is as follows:

Due to/from other funds:

<u>Receivable fund</u>	<u>Payable fund</u>	<u>Amount</u>
General Fund	Nonmajor governmental funds	\$ 24,478
General Fund	SPLOST Fund	575,196
Nonmajor governmental funds	General Fund	287,889
Solid Waste Fund	General Fund	1,142

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Interfund transfers for the year ended December 31, 2014 were as follows:

<u>Transfers In</u>	<u>Transfers Out</u>	<u>Amount</u>
General Fund	Nonmajor governmental funds	\$ 3,926

For governmental activities, compensated absences and the net pension obligation are liquidated by the General Fund.

Notes Payable. In order to secure financing for the debts of the previous administration, the County transferred certain public buildings to a newly created entity, the Lumpkin County Public Building Authority. In February 2001, this Authority then sold those assets back to the County in exchange for the County's promise of payment backed by its full faith and credit and taxing power. The rights to receive those payments under the agreement for sale were then assigned to the bank which provided \$15,750,000 in financing. Scheduled repayment of this sum, including interest from 5.02% to 7.26%, is outlined below. Final payment is due February 1, 2017. In the event of any early payment, a premium determined by the February 2001 agreement would be due. During 2002, a Special Purpose Local Option Sales Tax was passed as provided by O.C.G.A. Sec 48-8-100, et seq. for the purpose of paying off and retiring a substantial portion of this debt.

Revenue Bonds. In May 2013, the County completed its purchase of a judicial facility from the Association County Commissioners of Georgia by issuing the Lumpkin County Public Building Authority Revenue Bonds, Series 2013 which refunded previously outstanding certificates of participation. The proceeds from the bonds, together with certain other moneys, were deposited into an escrow fund which provided sufficient money to pay, when due, the principal and interest on the certificates up to and including November 1, 2014 when the certificates were fully redeemed. The revenue bonds bear interest at rates ranging from 1.25 – 2.00% and payments are made semiannually on May 1 and November 1 beginning in 2013 and concluding when the bonds are retired on November 1, 2027.

The County's debt service requirements to maturity on its revenue bonds are as follows:

<u>Year ending December 31,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2015	\$ 610,000	\$ 175,978	\$ 785,978

Total	<u>\$ 8,880,000</u>	<u>\$ 1,338,951</u>	<u>\$ 10,218,951</u>

Conduit debt. In December 2001, the Lumpkin County Public Building Authority issued \$5,000,000 in aggregate principal amount of Lumpkin County School District Qualified Zone Academy Project Bonds, Series 2001. The proceeds were used to rehabilitate, repair, renovate, extend, and improve Lumpkin County Middle School and Lumpkin County Elementary School. As of December 31, 2014, the amount outstanding related to these bonds is \$277,115. The obligation of the Lumpkin County School District to make the payment required by the contract is a general obligation of the Lumpkin County School District for which its full faith and credit and taxing power are pledged. The Public Building Authority has no obligation to repay this debt beyond the funds received from the Lumpkin County School District. As a result, these bonds are considered conduit debt for the Public Building Authority and are not reported as liabilities.

Landfill post-closure costs. Effective June 17, 2003, the Lumpkin County Landfill was closed and no additional waste has been accepted. According to state and federal laws and regulations, the County must perform certain maintenance and monitoring functions at the site for a minimum of 30 years. As of December 31, 2014, the County has 19 years of monitoring remaining. Engineering studies estimate post-closure costs of approximately \$418,000 over the 19 year period. These costs are based on what it would cost to perform all post-closure care in 2014, adjusted annually for inflation. Actual costs may be higher due to changes in inflation, changes in technology, or changes in regulations. Should any problems occur during this post-closure period, the costs and time period required for the maintenance and monitoring functions may substantially increase.

NOTE 9. DEFINED BENEFIT PLAN

Plan Description

The County sponsors the Association of County Commissioners of Georgia Lumpkin County Defined Benefit Plan (The Plan), which is a defined benefit pension plan.

The Plan provides retirement, disability, and death benefits to plan participants and beneficiaries. The Plan is affiliated with the Association of County Commissioners of Georgia Defined Benefit Plan (The ACCG Plan), an agent multiple-employer pension plan administered by GEBCorp. The ACCG, in its role as the Plan Sponsor, has the sole authority to amend the provisions of The ACCG Plan as provided in Section 19.03 of The ACCG Plan document. The County has the authority to amend the adoption agreement, which defines the specific benefit provisions of The Plan as provided in Section 19.02 of The ACCG Plan document. Complete financial statements for the Association of County Commissioners of Georgia (ACCG) Defined Benefit Pension Plan can be obtained from GEBCorp, 3625 Cumberland Boulevard, Suite 825, Atlanta, Georgia 30339.

Funding Policy

The County is required to contribute an actuarially determined amount annually to The Plan's trust. A contribution amount is determined using actuarial methods and assumptions approved by The ACCG Plan trustees and intended to satisfy the minimum contribution requirements as set forth in controlling State of Georgia statutes. Plan participants are not required to contribute to the plan.

Annual Pension Cost

The County's annual pension cost and net pension obligation for the pension plan for the year beginning January 1, 2014 are as follows:

	January 1, 2014	January 1, 2013
<u>Derivation of Annual Pension Cost</u>

NOTE 10. DEFINED CONTRIBUTION PLAN

The County, by resolution, adopted the ACCG 401(a), a defined contribution retirement plan, administered by GEBCorp. The plan provisions and contribution rates may also be amended by resolution. Current full-time employees are eligible to participate, beginning on their date of hire. The County shall make a matching contribution on behalf of each participant to the plan equal to 4% of the participant's compensation for each participant who contributes 2% of their compensation.

For the year ended December 31, 2014, the County's covered payroll for employees participating in this plan was \$4,465,075 and total payroll was \$8,523,700. The County's contribution was \$178,603 and employee contributions were \$200,480.

NOTE 11. RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; thefts of, damage to, and destruction of assets; errors and omissions; natural disasters; injuries to employees; and losses resulting from providing accident and health benefits to employees and their dependents.

The County participates in the Georgia Interlocal Risk Management Agency Fund and the Association of County Commissioners of Georgia Group Self-Insurance Workers Compensation Fund, a public entity risk pool currently operating as a common risk management and insurance program for member local governments.

As part of the risk pool, the County is obligated to pay all contributions and assessments as prescribed by the pool, to cooperate with the pool's agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The County is also to allow the pool's agents and attorneys to represent the County in investigation, settlement discussions, and all levels of litigation arising out of any claim made against the County within the scope of loss protection furnished by the funds.

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the workers' compensation law of Georgia. The funds are to pay all costs taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

The County also carries insurance for all other risks of loss, including general liability and errors and omission coverage through a private insurance company. Settled claims have not exceeded insurance coverage in any of the past three years. There have been no significant reductions of insurance coverage from coverage in the prior year.

NOTES TO FINANCIAL STATEMENTS

NOTE 12. COMMITMENTS AND CONTINGENCIES

Litigation

The County is involved in several pending lawsuits. Liability, if any, which might result from these proceedings, would not, in the opinion of management and legal counsel, have a material adverse effect on the financial position of the County.

Grant Contingencies

The County has received Federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to the disallowance of certain expenditures previously reimbursed by those agencies. Based upon prior experience, County management believes such disallowances, if any, will not be significant.

Financial Guarantees

In August 2013, the Development Authority of Lumpkin County obtained financing from a financial institution in the form of a loan in the maximum principal amount of \$1,403,614. Subsequently, the County guaranteed this loan in accordance with an intergovernmental contract signed between the Development Authority and the County dated August 27, 2013. Payments on the loan are due in monthly installments of principal and interest for a term of 240 months. As of December 31, 2014, the outstanding balance of the loan is \$1,333,756. In the event that the Development Authority has insufficient funds on deposit to enable the Development Authority to pay the principal and interest on the loan, the County will be required to transfer funds to the Development Authority such that payments from the County, when added to amounts available in the Development Authority's accounts, will be sufficient to pay principal and interest currently due.

NOTE 13. JOINT VENTURE

Under Georgia law, the County, in conjunction with other cities and counties in the area, is a member of the Georgia Mountains Regional Commission (RC) and is required to pay annual dues thereto. During the year ended December 31, 2014, the County paid \$27,242 in such dues. Membership in the RC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of regional development commissions in Georgia.

NOTES TO FINANCIAL STATEMENTS

NOTE 13. JOINT VENTURE (CONTINUED)

The RC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a regional development commission. Separate financial statements may be obtained from:

Georgia Mountains Regional Commission
P.O. Box 1720
Gainesville, GA 30501

The County participates with Union and Towns Counties in the North Georgia Resource Management Authority. The Authority studied solid waste disposal issues, developed a plan to recycle waste paper and has leased those facilities to private entities. Lumpkin County has an ongoing financial interest and obligation for funding debt service requirements. The participating counties are annually assessed varying amounts to cover the Authority's inability to service its debt. During the year ended December 31, 2014, the County made no payments to the Authority. As of December 31, 2014, the Authority does not have any debt outstanding. Separate financial statements can be obtained from their office at:

North Georgia Resource Management Authority
150 Hudson Ridge, Suite 1
Homer, GA 30547

NOTE 14. HOTEL/MOTEL TAX

The County has levied a 5% lodging tax. During the year ended December 31, 2014, the County collected \$132,675 in hotel/motel taxes. For the same year then ended, the hotel/motel tax fund reported expenditures of \$132,109, which includes transfers out to the County's General Fund, for the promotion of tourism in accordance with the provisions of O.C.G.A. 48-13-51.

NOTE 15. SUBSEQUENT EVENTS

Primary Government

On January 5, 2015, the Development Authority of Lumpkin County and Lumpkin County, Georgia entered into an intergovernmental contract relating to \$1,500,000 maximum principal amount Development Authority of Lumpkin County Taxable Industrial Development Revenue Bonds, Series 2015. The bonds will be issued by the Authority to finance the costs of acquiring, constructing and equipping an industrial facility to be occupied by a third party. The bonds will be secured by a pledge of rental payments from the facility's occupant. Additionally, the bonds will further be secured by the intergovernmental contract between the Authority and the County whereby the County agrees, among other things, to make payments to the Authority sufficient, when and to the extent needed, to pay the debt service on the Series 2015 bonds.

NOTE 15. SUBSEQUENT EVENTS (CONTINUED)

Lumpkin County Water and Sewerage Authority

On February 24, 2015, the Water and Sewerage Authority executed a promissory note to the Georgia Environmental Finance Authority (GEFA) to borrow up to \$1 million from the Drinking Water State Revolving Fund for the construction of a 500,000 gallon elevated water storage tank. The unpaid principal balance of the note will bear interest at 2.03% and will be payable monthly until the project is completed or January 1, 2018 (whichever is earlier). At that time, the note will be finalized and will enter into its repayment phase whereby principal and interest will be due in two hundred thirty-nine (239) equal monthly installments until the note is fully repaid.

(1) The decrease in 2007 is primarily due to expenditures on capital projects that will be funded by the new SPLOST. The increase in 2008 is due to the issuance of certificates of participation that are to be used for capital projects. The decrease in 2010 is primarily due to expenditures on capital projects that will be funded by future SPLOST revenues.

(2) The County implemented GASB Statement 54 in fiscal year 2011.

Note: Property in the County is assessed annually. The County assesses property at approximately 40 percent of actual value for all types of real and personal property. Estimated actual value is calculated by dividing assessed value by those percentages. Tax rates are per \$1,000 of assessed value.

- (1) Includes timber and heavy equipment.
- (2) There was a property revaluation in 2007 that substantially increased real property values.
- (3) Decrease is due to new exemptions giving \$100,000 off assessed values or \$250,000 off fair market values, as well as lost large manufacturing companies within the County.
- (4) Increase is due to the addition of the exemption for the elderly (65 and older) and disabled.

Note: Indicators are not available for any functions other than those listed above.

N/A - Information is not available.

(1) - The County established a new inspection program in 2007 resulting in an increase in the number of inspections conducted.

(2) - The newly elected Sheriff and his staff have made motor vehicle safety a top priority which has resulted in more citations written.

(3) - The decrease in citations is noted to be the result of increased citizen education.

*Prevention provision- full fledged inspections (Late April-Dec. 31st)

COMPLIANCE SECTION

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

**Board of Commissioners
of Lumpkin County, Georgia
Dahlonega, Georgia**

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Lumpkin County, Georgia (the "County") as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated June 5, 2015. Our report includes a reference to other auditors who audited the financial statements of the Lumpkin County Department of Public Health and the Development Authority of Lumpkin County, as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and responses, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and responses, as items 2014-001 through 2014-003, to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Lumpkin County, Georgia's Response to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SECTION II
FINANCIAL STATEMENT FINDINGS AND RESPONSES

**2014–001 Intergovernmental Revenue and Related Balance Sheet Account Reporting
(Lumpkin County Water & Sewerage Authority)**

Criteria: Internal controls should be in place to ensure that amounts reported as revenues and related balance sheet accounts are appropriate and properly valued in accordance with generally accepted accounting principles (GAAP).

Condition: Misstatements were detected in the reporting of the Authority's intergovernmental revenues and related balance sheet accounts.

Context/Cause: During the course of our testing, certain adjustments were required to properly report the Authority's intergovernmental revenues and related balance sheet accounts. The nature of these adjustments is as follows:

- During our testing of the Authority's activity for 2014, we noted the Authority was being reimbursed by Lumpkin County for a capital construction project. Our review of the Authority's accounts revealed that the intergovernmental revenue from the County had been netted against the project related expenses thus understanding the Authority's revenues and assets. As a result, an audit adjustment of approximately \$217,000 was required to properly report intergovernmental revenues and related project costs in accordance with generally accepted accounting principles.
- Furthermore, during our testing of the construction in progress balance related to the above project, we noted the Authority did not accrue certain project expenses for work that was completed through December 31, 2014. As a result, an audit adjustment of approximately \$118,000 was required to record the accounts payable and construction in progress as well as to accrue the revenue and receivable for the reimbursement to be received from the County for the project costs.

Effects: Total misstatements related to revenue recognition and reporting of the related balance sheet accounts totaled approximately \$335,000 for the year ended December 31, 2014.

Recommendation: We recommend the Authority carefully review all revenues and the related balance sheet accounts to ensure amounts are reported in the proper reporting period and include all activity in accordance with generally accepted accounting principles.

Auditee's Response: We concur with the finding. We will take necessary steps in the future to ensure that revenues and related balance sheet accounts are properly reported.

2014-002 Financial Closeout and Reporting
(Lumpkin County Water & Sewerage Authority)

Criteria: Internal controls should be in place to ensure the Authority can perform timely and accurate financial closeout procedures in order for the Authority to produce its monthly and annual financial statements.

Condition: Internal controls were not sufficient to detect certain misstatements in the preparation of year-end adjustments and reconciliations.

Context/Cause: During the course of our testing, certain audit adjustments were required to correct year-end balances of the Authority due to errors incurred during the financial closeout process. The nature of these errors and the audit adjustments required are as follows:

- When attempting to accrue unbilled revenue for water and sewer services provided in the month of December, management of the Authority improperly recorded these items as adjustments to the Authority's cash balances and regular accounts receivable. As such, audit adjustments of approximately \$57,000 were required to properly report these balances at year-end.
- The Authority did not adjust the beginning balance of prepaid expenses for items that were accrued at the end of the prior year and should have been expensed during 2014. As such, audit adjustments of approximately \$7,000 were required to properly report expenses and reduce prepaid assets for the current year activity.
- The Authority's accrual for payroll expenses incurred in December 2014 and paid in January 2015 did not take into consideration the beginning balance in the liability account from the prior year end. As such, the liability recorded by the Authority was too high by approximately \$11,000 and as such, an audit adjustment of that amount was required to properly report accrued payroll and personnel expenses for the year ended December 31, 2014.
- The December 2014 reconciliation of the Authority's main operating cash account (the Revenue Fund) including a significant number of reconciling items that needed to be posted to the general ledger. As such, audit adjustments totaling approximately \$23,000 were required to properly report the Authority's cash balances as of December 31, 2014. Furthermore, it is noted that the Authority's bank account reconciliations throughout the year contained significant differences between the adjusted bank balance and the general ledger balance and these differences were not reconciled until audit fieldwork was being conducted.

FINANCIAL STATEMENT FINDINGS AND RESPONSES (Continued)

2014-002 Financial Closeout and Reporting (Continued)
(Lumpkin County Water & Sewerage Authority)

- An audit adjustment of approximately \$1,000 was required to properly report ending capital asset balances. This misstatement resulted from the Authority improperly expensing an item that qualified for reporting as a capital asset and should have been capitalized.
- An adjustment of approximately \$4,000 was required to reclassify principal repayments on one of the Authority's loans payable from expenses to a reduction of the liability. This misstatement resulted from the Authority improperly recording current year principal payment activity in the income statement rather than as a reduction to the long-term liability balance.
- An adjustment of approximately \$12,000 was required to record current year amortization expense on deferred charges to report these balances in accordance with GAAP.

Effects: Audit adjustments totaling approximately \$115,000 were required to correct current year financial statement balances.

Recommendation: We recommend the Authority carefully review all of its monthly and annual closeout procedures to ensure all transactions are reported in the proper period and in accordance with GAAP. Furthermore, we recommend that complete monthly reconciliations of all cash accounts are performed in accordance with a sound internal control environment.

Auditee's Response: We concur with the finding. We will take necessary steps in the future to implement the above recommendations.

SECTION II
FINANCIAL STATEMENT FINDINGS AND RESPONSES (Continued)

2014-003 Segregation of Duties
(Lumpkin County Water & Sewerage Authority)

Criteria: Segregation of employees' duties is a common practice in an effective internal control structure. Segregation of duties is when specific employee functions related to important accounting areas (such as the posting of journal entries, cash receipting and cash disbursing) are separated among different individuals to significantly reduce the risk that any one individual could intentionally or unintentionally misappropriate assets. Policies should be in place requiring the segregation of duties.

Condition: The limited number of employees involved in the operations of the Authority and the resulting overlapping of duties causes segregation of duties to be difficult in certain circumstances.

Context/Cause: During the course of our testing, we noted the following deficiencies in the Authority's internal controls that present segregation of duties issues:

- Currently, there is not a proper segregation of duties among those who initiate journal entries, approve journal entries, and post journal entries to the general ledger.
- Currently, there is not a policy in place requiring the purchase card (P-Card) usage of the Director to be reviewed and approved by another individual or the Board of Directors.

Effects: Without some segregation of duties and contingency plans to address employee vacancies when they occur, there is increased exposure that someone could intentionally or unintentionally misappropriate assets of the Authority.

Recommendation: We recommend the Authority review its processes and determine where it can effectively segregate duties and implement other internal controls procedures where necessary to alleviate the issues noted above.

Auditee's Response: We concur with the finding. We will review our operations to determine the most efficient and effective solutions to properly segregate duties at the Authority.
