ADDENDUM #1

RFP # 2016-006

1500 Gallon Pumper Trucks

Proposal Closing Date/Time: July 29, 2016 @ 2:00 PM, EST

This addendum is issued today, July 18, 2016, to change or clarify the proposal documents and specification documents associated with RFP # 2016-006 1500 Gallon Pumper Trucks issued on July 8, 2016.

There is one (1) addition and one (1) deletion/replacement to the specifications document. They are as follows:

Addition for rearview camera: Federal Signal model number: CAMPSET56-NTSC-2 rear vision camera system, 5.6" flat panel color monitor and rear vision color camera (or equivalent). The monitor will be mounted so it is in plain view for the driver and the camera shall be mounted on the rear of the apparatus to allow the driver full view of the rear of the apparatus. The camera system will be wired to automatically activate when the vehicle transmission is placed in reverse.

Deletion/Replacement: The following shall be deleted (page 31, item 5) from the specifications document and replaced with the new specification.

~~5. Nozzles~~

~~Three (3) Pistol Grip One (1)~~

~~Play Pipe~~

5. Nozzles

Three (3) Pistol Grip, Akron Saber 1 1/2" nozzles, model #2431

Three (3) Akron adjustable fog tips (150GPM @ 50 PSI) model #4866

One (1) Pistol Grip, Akron Saber 2 1/2" nozzle w/stream shaper, model #2431

In Section 2. Scope of Work the following statement has been amended to reflect the number two (2) and **not** four (4).

Proposal price shall include the cost for a pre-build engineering meeting at the builder's physical plant location and a final inspection trip for two (2) ~~four (4)~~ Fire/EMS department members. The trip shall include all associated cost, hotel, food, transportation and airfare if located more than 150 miles from Dahlonega, Georgia.

Note: You must submit a signed addenda with your proposal, the form is provided in the proposal document.
